RFP# 2900-2019				
Program	Section & Page #	Questions	Responses	
Budget	pg 28	The RFP states "Milwaukee County Pretrial Information Services Information System Support - ongoing software and database development. IT support for database and system user. Server and equipment support. (See Section 9.6(D) below). "It does not appear there is associated information in Section 9.6(D). Is this information provided elsewhere? Please clarify what kind of expenses would be associated with ePretrial for each program?	The vendor is not required to budget money to support the Milwaukee County Pretrial Services Information System (ePretrial).	
Budget	9.6(A) pg 27	Under 'Milwaukee County Pretrial Services Information System Support' it states that the costs for this line item should be budgeted according to "Section 9.6(D) below", however 9.6(D) refers to financial/audit statements and not MCPSIS IT/support costs. Information on how and how much to budget for this line is not included within the RFP. Can the County provide clarification on this?	The vendor is not required to budget money to support the Milwaukee County Pretrial Services Information System (ePretrial).	
Continuous Remote Alcohol Monitoring		For continuous remote alcohol monitoring, does Milwaukee County require that the device confirms human consumption vs environmental interference, or does the County only require the detection of alcohol?	The County only requires the detecting of alcohol. However, vendors may propose the use of technology that confirms human consumption only.	
Continuous Remote Alcohol Monitoring		For CAM, will Milwaukee County require any demonstration of the technology for final candidates? If so, when will this take place?	Demonstrations of the device is not anticipated. However, if it is determined that is needed it would be the week of May 28th.	
Continuous Remote Alcohol Monitoring		What do you anticipate the maximum daily census is for CAM?	The capacity of the program is determined by budget. We are currently unable to provide program cap. There is an average of 20 county pay individuals in the program per day.	
Continuous Remote Alcohol Monitoring		Can you confirm that CAM technicians will not be required to enter information into ePretrial?	CAM technicians will not need to enter information into ePretrial; however they must effectively and swiftly communicate with the case managers regarding compliance/non-compliance, and schedules. There must be a written policy regarding the communication and sharing of the information between the CAM technician(s) and the case manager(s).	
Continuous Remote Alcohol Monitoring	4.10 pg 16	Can the County clarify what is meant by the requirements that "consumption non-compliance" must be reported within 24 hours of occurrence? Does this require 24 notice from the time of alcohol consumption, or within 24 hours of the event being identified as a "confirmed consumption event" by the device manufacturer's technicians?	This implies notice being provided within 24 hours of the event being identified as a confirmed consumption event by the device manufacturer's technicians. The proposal should indicate how long it takes for the manufacturers to confirm an event.	
СВТ	9.11 pg 15	How many participants should the program expect to serve? What qualifications will be required for the clinicians who provide these services? Is there a limit on the number of participants in each group?	The program should be able to serve all of the eligible participants in the Early Interventions Central Liaison Unit-Deferred Prosecution (program capacity 90), Treatment Alternatives and Diversion (program capacity 90), and the Drug Treatment Court (program capacity 80). The individuals should be qualified with the appropriate certification to facilitate the programming proposed.	
Contract Payment	7.1 pg 24	Will the County consider a payment structure whereby the vendor is paid 1/12th of the overall contract monthly with periodic reconciliation based on actual expenses?	Yes. Payment of 1/12 of the overall contract monthly with periodic reconciliation may be approved.	
Court Reminders	4.3 pg 11	Would the county accept alternate proposals which incorporate mobile reminders for all court scheduled hearings and appointments? These mobile reminders allow for read receipts as well as a written record of all correspondence with the defendant.	The County is willing to consider mobile reminders. The rationale for mobile reminders should be clearly explained in the response along with how the communication is monitored/confirmed and outcomes.	
Court Reminders	4.3 pg 11	In order to determine staffing levels required for completion of this service component, can the County provide the average number of court hearings per year per defendant for which the 3,164 Level 1 and level 2 supervision defendants will require court contacts?	In 2018, the median length of a misdemeanor case was 121 days. The average number of hearings per case per defendant is not known.	
Drug Testing	9.8	Will the County consider sending all positives screens for GC/MS confirmation? If so, how many individual substances tested positive in 2018?	The County is willing to consider such proposals. Sending every screen is likely cost prohibited for the County. The rationale for GC/MS confirmation should be explained along with the turn around time for the results. The cost difference should be clearly explained in the cost proposal.	
Drug Testing	9.8	Is the County open to changing the substances currently being tested?	The County is willing to consider such proposals. The rationale for the change and the selected substances should be clearly explained in the technical proposal.	
Drug Testing	9.8	Is the county open to eliminating direct observation drug testing for all pretrial defendants?	No, direct observation is required.

Pretrial Insurance Requirements (Section 6.2)

Every contractor and all parties furnishing services or product to County or any of its subsidiary companies must provide County with evidence of the following minimum insurance requirements. In no way do these minimum requirements limit the liability assumed elsewhere in the contract. All parties shall, at their sole expense, maintain the following insurance:

A. Commercial General Liability Insurance including contractual coverage: The limits of this insurance for bodily injury and property damage Combined shall be at least:

Each Occurrence Limit \$1,000,000
General Aggregate Limit \$2,000,000
Products – Completed Operations Limit \$2,000,000
Personal and Advertising injury Limit \$1,000,000

B. Business Automobile Liability Insurance:

Should the performance of this Agreement involve the use of automobiles, Contractor shall provide comprehensive automobile insurance covering the ownership, operation and maintenance of all owned, non-owned and hired motor vehicles. Contractor shall maintain limits of at least \$1,000,000 per accident for bodily injury and property damage combined.

C. Workers' Compensation Insurance:

Such insurance shall provide coverage in amounts not less than the statutory requirements in the state where the work is performed, even if such coverages are elective in that state.

D. Employers Liability Insurance:

Such insurance shall provide limits of not less than \$500,000 policy limit.

E. Professional Liability/Errors and Omissions:

This insurance should insure the professional services of the Contractor for the scope of services to be provided under this contract. Such insurance shall provide limits of not less than \$1,000,000 per occurrence and \$3,000,000 aggregate.

F. Medical Malpractice Insurance:

Such insurance shall provide limits of not less than \$1,000,000 per occurrence and \$3,000,000 aggregate.

G. Cyber Liability Insurance:

The limits of this insurance shall be at least per occurrence:

Security Liability \$5,000,000
Privacy Liability \$5,000,000
Regulatory Proceedings \$5,000,000
Technology Errors and Omissions \$5,000,000

H. Excess/Umbrella Liability Insurance

Such insurance shall provide additional limits of not less than \$3,000,000 per occurrence in excess of the limits in (A.), (B.), and (D.) above.

Additional Requirements:

- I. Contractor shall require the same minimum insurance requirements, as listed above, of all its contractors, and subcontractors, and subcontractors shall also comply with the additional requirements listed below.
- J. The insurance specified in (A.), (B.), (F.) and (H.) above shall: (a) name County including its directors, officers, employees and agents as additional insureds by endorsement to the policies, and, (b) provide that such insurance is primary coverage with respect to all insureds and additional insureds.
- K. The above insurance coverages may be obtained through any combination of primary and excess or umbrella liability insurance. County may require higher limits or other types of insurance coverage(s) as necessary and appropriate under the applicable purchase order.
- L. Except where prohibited by law, all insurance policies shall contain provisions that the insurance companies waive the rights of recovery or subrogation, by endorsement to the insurance policies, against County, its subsidiaries, its agents, servants, invitees, employees, co-lessees, co-venturers, affiliated companies, contractors, subcontractors, and their insurers.
- M. Contractor shall provide certificates evidencing the coverages, limits and provisions specified above on or before the execution of the Agreement and thereafter upon the renewal of any of the policies. Contractor shall require all insurers to provide County with a thirty (30) day advanced written notice of any cancellation, nonrenewal or material change in any of the policies maintained in accordance with this Agreement. Coverage must be placed with carriers with an A. M. Best rating of A- or better.
